Welcome to Bike GPS,

the leading European tour portal. Bike GPS helps you organize one-day bike tours, several-day bike tours, round trips or complete Transalp tours for your mountain bike or racing bike. In 2007, the Bike GPS portal has more scenic tours and useful services than ever.

Enjoy a wide range of tours

You can download 1,100 tours and Transalp tour stages totaling 25,000 kilometers and 800,000 meters of uphill climbs. This includes tours in 29 regions from Munich to the Mediterranean and from the Tauern region to Tessin.

Pay by credit card

Paying by credit card is very convenient: Pay for tours with your Visa card or Mastercard and download them immediately from our website.

Find out more about GPS navigation

Read a detailled test report on Garmin's best-selling GPS receivers for bikes. Learn more about how to transfer GPS data to your GPS receiver using our free uploader. Finally, click on "News" to find out how the new Garmin GPSMap 60CSx and its revolutionary reception capabilities (powered by the SiRFSTAR III chipset) performed in our tests.

New: Bike GPS in English!

In spring 2006 the English version of the Bike GPS tour portal went online. Tour data such as elevation profiles, road books, tour descriptions and historic information of the Jeantex Bike Transalp 2007, all 91 tours of the Alta Rezia Region and all tours in Ticino. More regions are to come.

Enjoy your visit to our website! We wish you many unforgettable bike tours.

Your Bike GPS team!
